Gentlemen,

Your ~~half~~ hour and a half China show this afternoon, the most recent and the best of your Vietnam Perspective series, is a real contribution to public understanding and discussion of a major issue and an outstanding contribution to both information dissemination and the functioning of the democratic society.

If you have a transcript of this (also any of the others in the series) I'd like very much to have it and your permission to use it, with attribution, in writing a project.

I don't believe anyone has at least in your medium approached the subject of China today with the depth, perspective and conspicuously fine talent you gave us. We are all in your debt for it.

Sincerely yours,

Harold Weisberg
